Note:
This A/C has the five-blade
AN/APG-117 (FP) Aperture on
its nose.

The dark gray color on this jet is a hybrid mix of FS36118.
There is a slight hint of green in this color so mix in a little
olive drab in and you should be fine.

This scheme was the brainchild of Sgt David A. Sorensen. While on cruise most Marine units are given permission to paint a one-off special scheme. Sgt Sorensen designed this scheme which lends a lot of elements to the splinter camo schemes of Keith Ferris. Sgt Sorensen mixed his own variation of Gunship Gray and this is his creation.

Very special thanks to
Greg Davis and
Sgt David A. Sorensen of VMFA-312.

TwoBobs' goal is to provide you with the most thoroughly researched decals that money can buy. We go beyond using traditional reference resources and many times speak with the actual aircrew and maintainers of our subject matter. Being modelers ourselves, we understand that there is no substitute for this painstaking research and we are proud to offer what we feel are the best decals on the market. If you have any subject matter that you feel should be the next TwoBobs creation, let us know. We'll be happy to listen to any and all customer input.
